This is amazing!

It generates an image from your hand drawing sketch! All sources are from internet.

Sketch2Photo: Internet Image Montage from Tao Chen on
Vimeo.

Sketch2Photo is developed by university students in ASIA and it was promoted at SIGGRAPH ASIA 2009.

The official web page of Sketch2Photo is here (The server was down last few days because of too much access).

You can download it from here but the page is only in Japanese or I can't find English link.

Here is the instruction how to download it.
